### Use the iLock App to unlock your Networkx ArchiTech® Bluetooth® Series Door Lock in seconds!

Introducing iLock, the easy smartphone mobile solution for unlocking your Trilogy® ArchiTech Bluetooth Series Designer Access Control Locks from any smart device without the need to carry cumbersome ID cards or keys. Password protected access is secure through the use of Bluetooth LE® and proprietary encryption. Additionally, an optional feature can be utilized, requiring a password for each unlock request.

**The Key is Your Smartphone & More Secure Technology**

Any Smart Device can be the Access Key: Much more than an ID card displayed on your smartphone, for your security, ArchiTech & its iLock App are wirelessly linked together, each supplying its portion of stored encrypted data to provide secure access without a key, fuss or worry, ensuring user identities.

A unique combination of convenience & cloneproof peace of mind, the ArchiTech platform uses universally-compatible Bluetooth LE technology, so they can use any smart device to unlock ArchiTech on your door(s); & do so from afar, at a comfortable, customizable range of up to 30 feet away. For even greater security users can add an optional passcode, entered on their phone App.

**iLock App is available from both iTunes and the Google Play Store**
